### \* AUTO WORKER **PAY INCREASE** STRIKES SNAG

#### METHOD OF PAYING GM 15-CENT HIKE IS DISPUTED

Detroit, April 23 (AP)—The CIO United Auto Workers, asking General Motors to arbitrate the 3½-cent difference stalemating their wage negotiations, invited GM President C. E. Wilson tonight to attend the pay parleys.

Expressing belief Wilson's presment," the UAW-CIO asked him to sit in on tomorrow's session when GM has promised to give the union its answer on the arbitration proposal.

Described by UAW President Walter P. Reuther as now "hopelessly deadlocked," the negotiations have bogged down in the conflict over a flat 15-cent hourly wage increase or GM's offer to include paid holidays within that |

# TELEPHONE EMPLOYEES ARE WELL PAID

### Here are some typical telephone wages in Escanaba:

OPERATORS—A young girl just starting in gets \$25 for a five-day week. She gets 4 raises the first year, and at the end of 12 months her basic wage rate is \$29. Regular increases bring this basic rate to a top of \$34. These basic rates are increased by overtime and premium payments for evening, night, Sunday and holiday work.

> STENOGRAPHERS and BUSINESS OFFICE REPRESENTA-TIVES, without previous experience, start at the same weekly rate of pay as operators. Those with experience get starting rates in keeping with their experience. Through regular increases, they reach top basic rates per week as follows: Stenographers \$41; Service Representatives \$46.

> > LINEMEN and INSTALLERS—The minimum starting rate for beginners learning the business is \$26 a week with regular increases bringing the basic rate to a top of \$55. This is increased by overtime and premium payments.

> > > CABLE SPLICERS and SWITCHBOARD REPAIRMEN - Men generally are transfered to these jobs from other telephone crafts and start at the same rate of pay they are earning when transferred. Regular increases bring this to a top of \$59 a week. This is increased by overtime and premium pay-

### MANY OTHER ADVANTAGES

Telephone people have steady work the year round-job security excelled in few other lines of work. They get holidays with pay. Vacations with pay of one week after one year's service, two weeks after two years' service and three weeks after fifteen years' service. Sickness benefits and pensions—with full cost paid by the company.

### HERE'S WHAT THE UNIONS WANT

The unions are asking a blanket increase of \$12 a week in basic wages. But that's only part of the demands. When the cost of all their other demands is added, the total averages \$25.33 more a week per employee.

#### HERE'S WHAT ALL OF THE UNIONS' DEMANDS WOULD COST

Michigan Bell's cost of providing telephone service would be increased \$26,000,000 a year.

This is more than twice the company's earnings in 1946. After paying all expenses last year, Michigan Bell had \$12,000,000 available for interest and dividends to investors. All of last year's profit wouldn't pay half the unions' demands.

To meet the unions' demands would add more than a \$1.50 a month per telephone to Michigan Bell's cost of serving the 1,406,000 telephones in its territory.

#### MICHIGAN BELL HAS OFFERED TO ARBITRATE ON WAGES

Do we — or don't we — pay good wages? That's the big question in the strike and we are willing to have it answered by an impartial board of representative Michigan citizens through arbitration.

The unions say telephone wages are low and they are insisting on substantial increases.

We say our wages today are fair to employees and fair to the public because they compare favorably with others paid in the community for work requiring similar skill. Over the past several years we've made big upward wage adjustments to keep them that

Offers to extend or renew present liberal contracts have been made time and again in collective bargaining with the Michigan unions. But they have not accepted those offers.

So Michigan Bell has said to the unions, "Let's put the wage dispute before an impartial group of representative Michigan citizens to decide. And then, let's both agree to abide by their decision." Certainly, these talks should be in a position to determine whether telephone wages in Michigan are fair to employees and fair to the public-and to what extent recent wage settlements in other industries have a bearing, if any, on telephone wages in Michigan communities.

We made this offer in an effort to prevent the strike, and we have made it repeatedly in an effort to settle the strike. Apparently a big reason why the Michigan unions have not accepted is that the National Federation of Telephone Workers, with which they are affiliated, is demanding nation-wide bargaining.

#### 99 PER CENT OF OUR TELEPHONE CALLS ARE WITHIN THE STATE OF MICHIGAN

Michigan Bell believes Michigan telephone labor disputes, like telephone rates, should be settled in Michigan - and not on a nation-wide basis where different conditions in other parts of the country might be controlling.

The telephone business in Michigan is requlated by the Michigan Public Service Com-

Nation-wide telephone bargaining would give the N.F.T.W. increased power over this essential public service - and without regulation in Michigan.

#### LET'S GET THE STRIKE SETTLED AS QUICKLY AS POSSIBLE

We believe our arbitration offer on wages could be the means of ending the strike quickly.

In its study the committee considered the valuations as established by the state tax commission, by the local assessing officer and the board of review, and by the Cleminshaw company. T greatest disagreement in the townships was over the Clemin shaw valuations on land. Valua tions were studied for each de scription and each property, that the resulting totals were co sidered fair and equitable for each of the townships.

The agreement on the valuations supplies a workable base on which equalization can be accomplished easily in the future. The assessor can in the years to come subtract losses, or add new values, and thus keep his assessed valuations up to date.

During the past winter the committee held hearings attended by each of the supervisor-assessors, and last Monday an additional meeting was held for the benefit of the new supervisors who were elected this month. The equalized valuation for the vari-

THE STRAN-STEEL

All-steel, quickly erected, low in cost, the "Ouonset 24" is a better building investment for your farm. Its amazing flexibility permits a free hand in planning for your particular needs.

The spacious, clear-span "Ouonset 24" is 24 feet wide, and as long as you want it, in sections of 12 feet. The front of each section can be independently enclosed, left open, or equipped with a roller door; side panels may be solid, or fitted with walk-doors and windows as required. Scores of variations and combinations are possible-and it's an easy matter to install whatever partitions, insulation, wallboard and accessories are desired. If you need more space later on, extra sections may be added simply and economically.

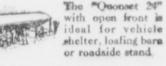

Built with Stran-Steel, the modern framing material that permits the outside sheet steel covering to be nailed directly to framing members, the "Quonset" is fire-safe and durable, free from sag and rot. No other building combines the ace cepted advantages of all-steel construction with ready adaptability to scores of uses.

Ask us for further informationwe'll be glad to show you how a "Ouonset 24" will meet your plans.

### SMELT DIPPING BAN PROPOSED

#### Commercial Fishermen Complain About Competition

Menominee— The 1947 smelt run is just history and there was talk of restrictions for 1948.

Commercial fish dealers continued to pay five cents a pound on the Menominee bay shore Tuesday for gillnet smelt and two cents a pound for dipnet smelt but they admitted frankly they are not anxious to buy dip net smelt because they have to protect the commercial fisherman who makes his living fishing.

At Cedar River a Pensaukee mink farmer purchased three tons of smelt that was dipped last night in the Cedar at the rapids about two miles upstream. He paid the dip net price of two cents a pound. Other dippers operated all along the Cedar including some at the mouth of the river and others at the little bridge behind the Bonville tavern.

Commercial fishermen Tuesday started a campaign to put a limit on dip net smelt. "It isn't quite fair," one fisherman said "when commercial fishermen pay a \$50 license a year and then have to pay pickers to clear the nets while a dip netter comes along with a \$2 license and competes with commercial fishermen for a few days a year." The press publishes stories about the smelt run and the average person figures that smelt should sell on the market at one cent a pound because they are plentiful.

"There is a lot of difference between gillnet smelt and dip net smelt in quality. A few years ago gill net webbing sold for \$3.50 and now the same webbing cost \$13.50. The same is true of helpers. We used to get helpers for a few dollars a day, and now the price is \$1 an hour. It isn't quite fair to the boys who make a living that way."

If past performances are a criterion-and they usually arethe Escanaba vets are in for a rough evening and the spectators are in for a solid laugh from start

The department of vital statistics shows the girls are undisputed world's women's champions. Never having been defeated by a girls' team, the Red Heads feel they have a rightful claim to the title, and who's going to argue? In eight seasons, they have played before more than 2,000,000 spectators throughout the world. Against 1,182 men's team, they've

of the games. But statistics are a small item. For instance, they're nice looking gals, and they have a lot of court tricks designed to keep the opposition in a dither and sideline observers in stitches. The payoff, they say, is when Stubby Winter

#### August J. Chouinard Is Taken By Death

August J. Chouinard, 61, of 1112 Wednesday at St. Francis hospital after an illness of three weeks with heart trouble. Mr Chouinard was born March 11, 1886, at Stanfald, P. Q., Canada and when he was 11/2 years of age his family settled in Escanaba, moving to a farm in Danforth 11 years later. He lived at Danforth and Flat Rock until his retirement a year ago, when he moved back to Escanaba. He was a member of St. Ann church, the Holy Name society, and Knights of Columbus

Survivors include the widow formerly Rosealma Chaput, and the following sons and daughters Roy Chouinard, Escanaba; Mrs. Francis Smith, Flat Rock; Leonard, East Lansing; Mrs. Michael Hein, Milwaukee; Theresa, Luella and Richard, Escanaba; and seven grandchildren. There are three sisters and a brother: Mrs. Joseph Germain, Frank Chouinard, Danforth; Mrs. Joseph Fillion, Flat Rock; Mrs. Eny Gagnon, Schaffer.
The body was taken to the Allo

### Price Cutting Idea Spreads Across Nation

BY SAM DAWSON

New York, April 23 (AP)-The battle for lower prices found new recruits today in the ranks of makers of soap, fats, oils, chemicals, wire and cables, music records and producers of Broadway

Retailers concentrated attention n the embattled housewives of New England, who were reported hastening to take advantage of the 10-day Newburyport, Mass., 10 per cent retail price cut, which had spread to nearby communi-

But across the nation, buyers cheered recent cuts at wholesale pork and beef prices, which they hope to see soon on shelves of retailers who have not yet announced reductions

There remained a strong warnng, however, from manufacturers and wholesalers that "really wide-spread reduction" cannot come until labor and material costs stop

The first big break in the price soaps came when Colgate-Jersey City, N. J., a 10 per cent

Lever Bros. in Boston announced a 10 per cent cut on all major ps products and glycerine and M. Werk Co. said in Cincinnati a

Prices of fats and oils, highly important in soap making, have dropped substantially, paving the way for a cut in soap. Soybean oil, cottonseed oil, peanut oil, corn oil, coconut oil and tallow have been marked down anywhere from 6% to 11 cents a pound.

Hog prices continued to slide in Chicago, although at a slower rate, and were off 25 to 75 cents a hundredweight. Cattle prices were steady to lower and sheep steady to higher.

#### Menominee City Engineer Resigns

Menominee - City Engineer George D. Brissette last night resigned his post to accept a position with the Limestone Products company. The resignation, which Mayor Otto R. Eickmeyer and regret, will become effective on May 1.

Brissette is a graduate of the niversity of Michigan's College

be filled by Mayor Eickmeyer fo expires next May. At that time council will elect his successor.

Among possible successors men tioned, is James I. Corbett, form er city engineer, who left the post where he attained the rank of major. Corbett applied for reinaction was taken because of a rul ing that the term to which he had been elected expired in 1944.
